

David Appel

President, Refrigeration
Carrier

David Appel is President, Refrigeration, for Carrier, leading the company's \$4 billion global transport and commercial refrigeration businesses and cold chain monitoring solutions. David is responsible for driving profitable growth through operational excellence and advancing products and services that protect and preserve the world's supply of food and pharmaceuticals.

David has more than 30 years of international experience with UTC. He has held numerous leadership roles at Carrier, including Managing Director for Toshiba Carrier UK; Vice President, European Heating, Ventilating and Air Conditioning (HVAC) Distribution; President, Building Systems & Service Europe, Middle East, Africa (EMEA); and President, HVAC EMEA. He was named President of Carrier's Refrigeration business in 2010.

David holds a bachelor's degree in economics from the Wharton School of Business, University of Pennsylvania.
