

PRODUCT SECURITY ADVISORY

June 26, 2023

PSIRT Record Number
CARR-PSA-013-0626

Overview

Beginning May 31st, Progress Software has released several security advisories regarding vulnerabilities in their MOVEit Transfer and MOVEit Cloud managed file transfer software. These vulnerabilities have gained significant media coverage including the following joint cybersecurity advisory from the US Cybersecurity & Infrastructure Security Agency ([CISA](#)) and Federal Bureau of Investigations (FBI):

PSIRT Statement

After performing our initial investigations, Carrier's Product Security Incident Response Team has determined no products are impacted by these MOVEit vulnerabilities at this time.

Should we determine that any of our products are impacted, additional information regarding mitigations or other actions in response to this matter will follow as our investigation unfolds.

Additional details on the MOVEit vulnerabilities can be found on the vendor's website:

About Carrier Global Product Cybersecurity

At Carrier, system and operational security is integral. To ensure outcomes, research and development teams leverage Global Product Cybersecurity – a team of highly experienced and credentialed veterans; diverse and dynamic cybersecurity domain experts who’ve maintained prominent roles and responsibilities in designing, building, and operating highly secure complex systems.

The Product Security Incident Response Team (PSIRT) focuses on the identification, assessment, and disposition of the risks associated with security vulnerabilities within Carrier products, offerings, solutions, components and/or services. PSIRT is a dedicated team of first responders responsible to deliver advanced support designed to contain and minimize the spread and impact of a product security event, incident, breach, and/or crises.

For more information about Global Product Security and PSIRT, please visit us as: <https://www.corporate.carrier.com/product-security/>
