

HEALTHY HOMES

As we continue to spend more time at home than ever before, it is imperative that we all work together to ensure our living and working spaces are healthy. This includes both the air we breathe as well as the comfort of feeling secure in our spaces. Our homes have become the new office, classroom, gym and restaurant, elevating the importance of indoor air quality and home safety in 2020. Now is the time to focus on our homes as a tool for health.

In the U.S., we spend **90%** of our lives indoors

CREATING A HEALTHY HOME

Carrier offers a suite of targeted solutions for homes that can help improve the overall health of your home and, in turn, help keep your family healthy and safe.

Carrier products, including air conditioners, air purifiers and humidifiers, serve many purposes. They can help make the air inside fresher and cleaner.

Fire safety products from Kidde, like smoke and carbon monoxide alarms, fire extinguishers and other fire safety accessories, can alert and help protect against the dangers of fire and CO poisoning.

Healthy Homes is part of Carrier's Healthy Buildings Program. Our enhanced filtration, fire suppression, and fire and carbon monoxide detection products will help improve home health – critical during this time and well into the future.
