

Edward Dryden

President, Climate Solutions Transportation
Carrier

Edward Dryden is President, Climate Solutions Transportation, for Carrier, leading the company's global transport refrigeration and cold chain monitoring businesses. He is responsible for driving profitable growth through innovative and sustainable solutions and services that preserve, protect and extend the world's supply of fresh food, lifesaving medicine and other perishable goods.

Edward brings a strong background in business, operations and engineering leadership. Before joining Carrier, he held a range of senior roles at Collins Aerospace and its heritage businesses, including President of the Interiors business and leader of the international Actuation Systems business.

He earned a bachelor's degree in electronic engineering from the University of Wales – Cardiff and an MBA from the University of Warwick – Warwick Business School.
