

Machiel Duijser

Senior Vice President, Operations

Carrier

Machiel (Mike) Duijser is Senior Vice President, Operations for Carrier. In this role, he is responsible for all aspects of Carrier's global operations, including strengthening supply chain resiliency, advancing operational excellence and driving productivity across the company's manufacturing network. Mike also leads advanced manufacturing initiatives, operations transformation, quality and environmental health and safety (EH&S) programs.

Before joining Carrier, Mike served as Executive Vice President & Chief Supply Chain Officer at Ecolab, where he led global supply chain and operations across more than 400 manufacturing plants and distribution facilities. Prior to that, he held key leadership roles at Reckitt, Amazon and Nestlé.

Mike holds a master's degree in physics engineering from the Swiss Federal Institute of Technology.
